* BF03S comes with AS3 20-40 pressure switch. All other Goulds Water Technology Jets come with AS4 30-50PSI switch as standard.

** Members of Goulds Professional Dealer Association enjoy an extended warranty of 36 months from installation and 42 months from date of manufacture, on all Goulds Water Technology Jets and GT pumps.

PRIMING **INDUSTRY LEADING**

Unlike other brands, Goulds Water Technology's Jet pumps prime easily and quickly, typically within 3 minutes.

SERVICABILITY

GWT Jets feature a back pullout design which allows disassembly of pumps for service without disturbing piping. Goulds Water Technology Jets also feature a two compartment motor which provides easy access to motor wiring and replaceable components.

RUST RESISTANT

All of GWT's cast iron jet pump parts undergo electrophoretic painting, or E-Coating, an immersion wet paint finishing process that uses electrical current to attract the paint product to a metal surface. This process coats all surfaces of each jet pump part, reducing rusting inside and out.

PRESSURE SWITCH

GWT Jet Pumps come equipped with a dependable, preset pressure switch (30-50 PSI). With years of successful use, our switch has proven to be robust and reliable throughout the long life of our Jet Pumps.

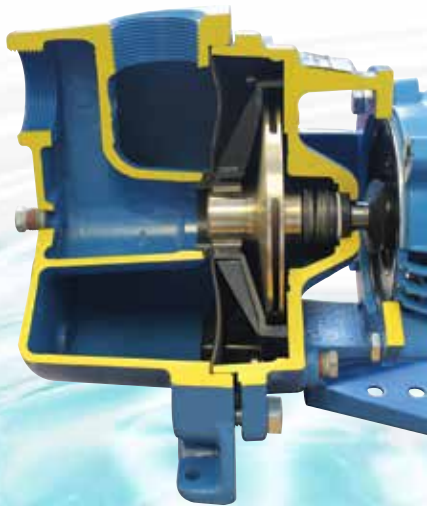

DRAIN PLUG

For convenient winterization, GWT Jets feature easily accessible drain plugs allowing for simple drainage of pumps to prevent cracking of impellers and casing due to freezing in the off season.

GT MODELS are available with silicon brass impellers as well as an optional higher base

GT -- S with optional base

TANK PACKAGES

Goulds Water Technology offers Jet Pump and Tank packages. Perfect for homes, farms, cottages, and booster service. Pre-configured packages include combinations of J+, JRS, and JRD jet pump models and V15, V45, V60 HydroPro Tanks.

ABOUT GOULDS WATER TECHNOLOGY

Goulds Water Technology, a Xylem brand, is one of the world's leading brands in residential and commercial water products. The brand began in 1848 in Seneca Falls, NY, when Seabury S. Gould purchased a pump making business. Today, Xylem's Goulds Water Technology brand is a leader of residential, commercial and agricultural products globally.
